

Pratham verma

📞 9149063670 — ✉ pratham2400@gmail.com —  LinkedIn —  Github

Summary — Experienced full-stack developer with experience in back-end and mobile development. Proficient in building scalable applications using **Flutter, Android development, REST APIs, Firebase, Node.js and Express**. Successfully developed and deployed multiple projects, including a social networking platform and a real-time fuel price tracking system, integrating back-end services, cloud technologies, and REST APIs.

Skills

Languages Java, Dart, JavaScript
Frameworks Flutter, React Native, Node.js, Express
Cloud Firebase, Cloud Messaging, GCP

Development Android Development, UX
Other Cloud, Automation

Projects

Someone: Find People Instantly

Apr 2024 – Present

- Tech Stack: Flutter, Firebase (Firestore, Authentication, Cloud Functions)
- Description: Developed a real-time anonymous chat platform where users are matched based on their preferences (gender, location, and interests). Unlike traditional WebSocket-based chat apps, this system was implemented using Firebase to ensure seamless scalability and real-time updates.

Fuel hub

Sep 2024 – Oct 2024

- Tech Stack: Node.js, Flutter, Firebase (Firestore, Cloud Messaging, Storage), QR Code API
- Description: Built a mobile application that allows users to track fuel prices at different stations and set price alerts. The app also features a referral and earn system with QR-based reward redemption.
- Admin Panel: Developed an admin panel using Node.js and Express for fuel price updates, push notifications, QR validation, QR scanning, policy management, and station management.

TeenLink – University and Student Networking Platform

Sep 2024 – Oct 2024

- Tech Stack: Flutter, Firebase (Authentication, Cloud Functions), MongoDB, Node.js
- Description: Developed a platform where students, counselors, teachers, and schools can enroll and interact. Students can join their respective universities, explore multiple universities, and follow them to stay updated with posts, announcements, scholarships, internships, events, and more. Users can also connect with students, view profiles and projects, and post content.

Books Room App

Sep 2023 – Nov 2023

- Bridging the gap between **users and administrators**. The "Book Room App" offers a centralized platform for managing and accessing an extensive collection of books, empowering both users and administrators with intuitive features to enhance their literary engagement.

Experience

Someone

Mar 2024 – Jun 2025

Co-Founder, Developer

- Developed cutting-edge **Flutter applications With Firebase and Data management** for diverse clientele, consistently delivering **top-notch solutions** that surpassed client expectations and drove company expansion.
- Collaborated with interdisciplinary teams to **generate and implement** innovative concepts for mobile app creation.

Education

Galgotias College of Engineering and Technology

Bachelor of Technology - B.Tech, Artificial intelligence and data science

Certifications

- Unschool - **App Development using Android Studio Certification**
- Google cloud - **Generative AI, Cloud computing, Cloud Basics**

ACHIEVEMENTS

- 1st Runner-up in 60 Teams in HackInnovate'24 For Verbal
- 1st Runner-up in 400 Teams across the Delhi-NCR in Geeks for Geeks Hackathon
- Top 10 in 120 Teams in SprintHacks 2.0 For Someone
- Top 10 in 300 Teams in GIH
